This technical drawing shows an exploded perspective view of a mechanical assembly. The main component is a rectangular block (70) with a complex internal structure. Various parts are shown in their relative positions, indicated by dashed lines. Key components include:
 

- 70**: The main rectangular block.
- 72**: Small cylindrical pins or fasteners.
- 74**: A bracket or support structure.
- 76**: A small cylindrical component.
- 78**: A small cylindrical component.
- 80**: A small cylindrical component.
- 82**: A small cylindrical component.
- 84**: A small cylindrical component.
- 86**: A small cylindrical component.
- 88**: A small cylindrical component.
- 90**: A small cylindrical component.
- 91**: A small cylindrical component.
- 92**: A small cylindrical component.
- 94**: A stack of rectangular components.
- 96**: A small cylindrical component.
- 98**: A small cylindrical component.
- 100**: A small cylindrical component.
- 102**: A small cylindrical component.
- 104**: A small cylindrical component.
- 106**: A small cylindrical component.
- 108**: A small cylindrical component.
- 110**: A small cylindrical component.
- 112**: A small cylindrical component.
- 114**: A small cylindrical component.
- 116**: A small cylindrical component.
- 118**: A small cylindrical component.
- 120**: A small cylindrical component.
- 122**: A small cylindrical component.
- 124**: A small cylindrical component.
- 126**: A small cylindrical component.
- 128**: A small cylindrical component.
- 130**: A small cylindrical component.
- 132**: A small cylindrical component.
- 134**: A small cylindrical component.
- 136**: A small cylindrical component.
- 138**: A small cylindrical component.
- 140**: A small cylindrical component.
- 142**: A small cylindrical component.
- 144**: A small cylindrical component.
- 146**: A small cylindrical component.
- 148**: A small cylindrical component.
- 150**: A small cylindrical component.
- 152**: A small cylindrical component.
- 154**: A small cylindrical component.
- 156**: A small cylindrical component.
- 158**: A small cylindrical component.
- 160**: A small cylindrical component.
- 162**: A small cylindrical component.
- 164**: A small cylindrical component.
- 166**: A small cylindrical component.
- 168**: A small cylindrical component.
- 170**: A small cylindrical component.
- 172**: A small cylindrical component.
- 174**: A small cylindrical component.
- 176**: A small cylindrical component.
- 178**: A small cylindrical component.
- 180**: A small cylindrical component.
- 182**: A small cylindrical component.
- 184**: A small cylindrical component.
- 186**: A small cylindrical component.
- 188**: A small cylindrical component.
- 190**: A small cylindrical component.
- 192**: A small cylindrical component.
- 194**: A small cylindrical component.
- 196**: A small cylindrical component.
- 198**: A small cylindrical component.
- 200**: A small cylindrical component.
- 202**: A small cylindrical component.
- 204**: A small cylindrical component.
- 206**: A small cylindrical component.
- 208**: A small cylindrical component.
- 210**: A small cylindrical component.
- 212**: A small cylindrical component.
- 214**: A small cylindrical component.
- 216**: A small cylindrical component.
- 218**: A small cylindrical component.
- 220**: A small cylindrical component.
- 222**: A small cylindrical component.
- 224**: A small cylindrical component.
- 226**: A small cylindrical component.
- 228**: A small cylindrical component.
- 230**: A small cylindrical component.
- 232**: A small cylindrical component.
- 234**: A small cylindrical component.
- 236**: A small cylindrical component.
- 238**: A small cylindrical component.
- 240**: A small cylindrical component.
- 242**: A small cylindrical component.
- 244**: A small cylindrical component.
- 246**: A small cylindrical component.
- 248**: A small cylindrical component.
- 250**: A small cylindrical component.
- 252**: A small cylindrical component.
- 254**: A small cylindrical component.
- 256**: A small cylindrical component.
- 258**: A small cylindrical component.
- 260**: A small cylindrical component.
- 262**: A small cylindrical component.
- 264**: A small cylindrical component.
- 266**: A small cylindrical component.
- 268**: A small cylindrical component.
- 270**: A small cylindrical component.
- 272**: A small cylindrical component.
- 274**: A small cylindrical component.
- 276**: A small cylindrical component.
- 278**: A small cylindrical component.
- 280**: A small cylindrical component.
- 282**: A small cylindrical component.
- 284**: A small cylindrical component.
- 286**: A small cylindrical component.
- 288**: A small cylindrical component.
- 290**: A small cylindrical component.
- 292**: A small cylindrical component.
- 294**: A small cylindrical component.
- 296**: A small cylindrical component.
- 298**: A small cylindrical component.
- 300**: A small cylindrical component.
